www.linkedin.com/in/noor-bibi-a75263282

SUMMARY

Software engineer and Computer Science graduate with 5+ years of freelance experience across web and mobile development, Shopify-based e-commerce websites, and social media management. Skilled in building AI/ML applications, frontend interfaces, and backend systems. Teaching experience includes 11-15 students at RISE and 60+ university students as a BNU Teaching Assistant. Combines technical problem-solving with client communication, project delivery, and hands-on mentoring.

AREAS OF EXPERTISE

- **Digital & Freelance Work: Fiverr** | **Upwork** | Direct Clients | Client Communication | Remote Project Delivery
- **Social Media & E-Commerce:** Instagram | Facebook | Content Planning | Shopify Maintenance
- **Training & Mentoring:** Digital Skills | Lesson Planning | Hands-on Learning | Learning Materials | Student Assessment
- **Web & Mobile Development:** HTML5 | CSS3 | JavaScript | React.js | Next.js | Flutter | Python | SQL | Git/GitHub | Vercel/Railway | Google Auth

EXPERIENCE

Freelance Digital Specialist & Developer **Mar 2021 - Present**

Remote, Self-Employed

- Worked continuously as a freelancer, first through **Fiverr** and **Upwork** and now through direct clients.
- Managed Instagram and Facebook accounts for clients, including content planning, posting, and audience engagement.
- Maintained and troubleshot Shopify-based e-commerce and brand websites, fixing store issues and keeping sites running.
- Built frontend, full-stack, and Flutter projects for remote clients, managing requirements, deadlines, revisions, and delivery.

Instructor **Jul 2025 - Present**

RISE - Resilient Innovators for Skill-building & Elevation, Lahore, Pakistan

- Taught digital skills and problem-solving to small cohorts of 11-15 students at RISE through interactive, project-based lessons.
- Facilitated hands-on practice, translating technical concepts into structured, beginner-friendly exercises.
- Developed supplementary learning materials and assessments to track student progress and improve engagement.

Teaching Assistant - DBMS, ADBMS & Artificial Intelligence **Sep 2024 - May 2025**

Beaconhouse National University (BNU), Lahore, Pakistan

- Conducted tutorials covering databases, SQL, and artificial intelligence concepts for undergraduate students.
- Assisted in grading coursework and mentored over 60 students through practical laboratory sessions.

Frontend Developer **2023 - 2024**

Bytecode Technologies Pvt. Ltd., India | Remote, Freelance

- Delivered frontend development work remotely for Bytecode Technologies on a freelance basis.
- Handled client requirements, deadlines, revisions, and delivery for assigned frontend projects.

President - BNU SciTech Society **May 2025 - Jun 2026**

Beaconhouse National University (BNU), Lahore, Pakistan

- Led the society and organized technology workshops, hackathons, seminars, and industry networking events.

EDUCATION

Bachelor of Science (BS) in Computer Science **Sep 2022 - Jun 2026**

Beaconhouse National University (BNU), Lahore, Pakistan

PROJECTS

MedAssist - RAG-Powered Clinical Knowledge Assistant - GitHub Link **2026**

- Developed a clinical knowledge assistant using retrieval-augmented generation and dual-layer hallucination mitigation.
- Achieved 100% evaluation accuracy across 25 clinical questions spanning five medical categories.

Atelier - AI-Based Personal Styling Application **Jun 2025 - May 2026**

- Developed a Flutter application with a twelve-season machine learning model for personalized styling recommendations.
- Built a FastAPI backend supporting wardrobe management, outfit planning, and fashion recommendations.

DevOpsFlow - Containerized CI/CD Platform - GitHub Link **2026**

- Built a three-tier platform using React, Express, PostgreSQL, Docker, and Kubernetes.
- Automated testing, vulnerability scanning, containerization, and deployment through GitHub Actions.
